Empowering Tomorrow's Leaders

WHAT IS WEB DEVELOPMENT

??

- Web Development is the building and maintenance of websites to make sure they look good, perform well, work fast, and offer a seamless user experience. In today's internet-savvy world where every business is seeking a digital presence, web development skills are in high demand globally and well paid too. This makes Web development a great career choice as well. In addition to that, web development is an easily accessible professional field as you are not required to have a traditional university degree to enter into this field and become qualified for the role of a web developer. Web development is broadly broken down into two fields i.e., front-end development and back-end development. The front-end developers use JavaScript, HTML, and CSS to look after the design, layout, and interactivity of the website. Back-end developers make sure that the application, server, and database are running smoothly together, using computer programs.

- CSS is another core language that plays a fundamental role in front-end development. This course introduces you to the programming language CSS3 and helps you gain an understanding of concepts like Syntax, CSS Layout, CSS Grid, FlexBox, and Media animations.
- This full-stack web development course equips you to use tools necessary for web development like – JQuery, Database Management, Node Js, and MongoDB.
- It teaches you functional programming, object-oriented programming, error handling, refactoring & debugging, database modeling, and much more.

Certification Aligned with

PROBLEM STATEMENT:

WEB DEVELOPMENT MINOR PROJECT

Title- E-commerce Website

An e-commerce site is a website where users buy products through an online platform.

Amazon, eBay, and any online retail store fit under this category. E-commerce websites actually require quite a bit of back-end development.

For example, managing shopping carts throughout a visitor's duration on the site (and oftentimes after) utilizes an impressive amount of data manipulation.

And APIs help users link their payment information securely by connecting the e-commerce site to financial systems like PayPal. But front-end development is paramount as well. You need front-end development to display goods in a way that attracts customers and to ensure the site is easily navigable.

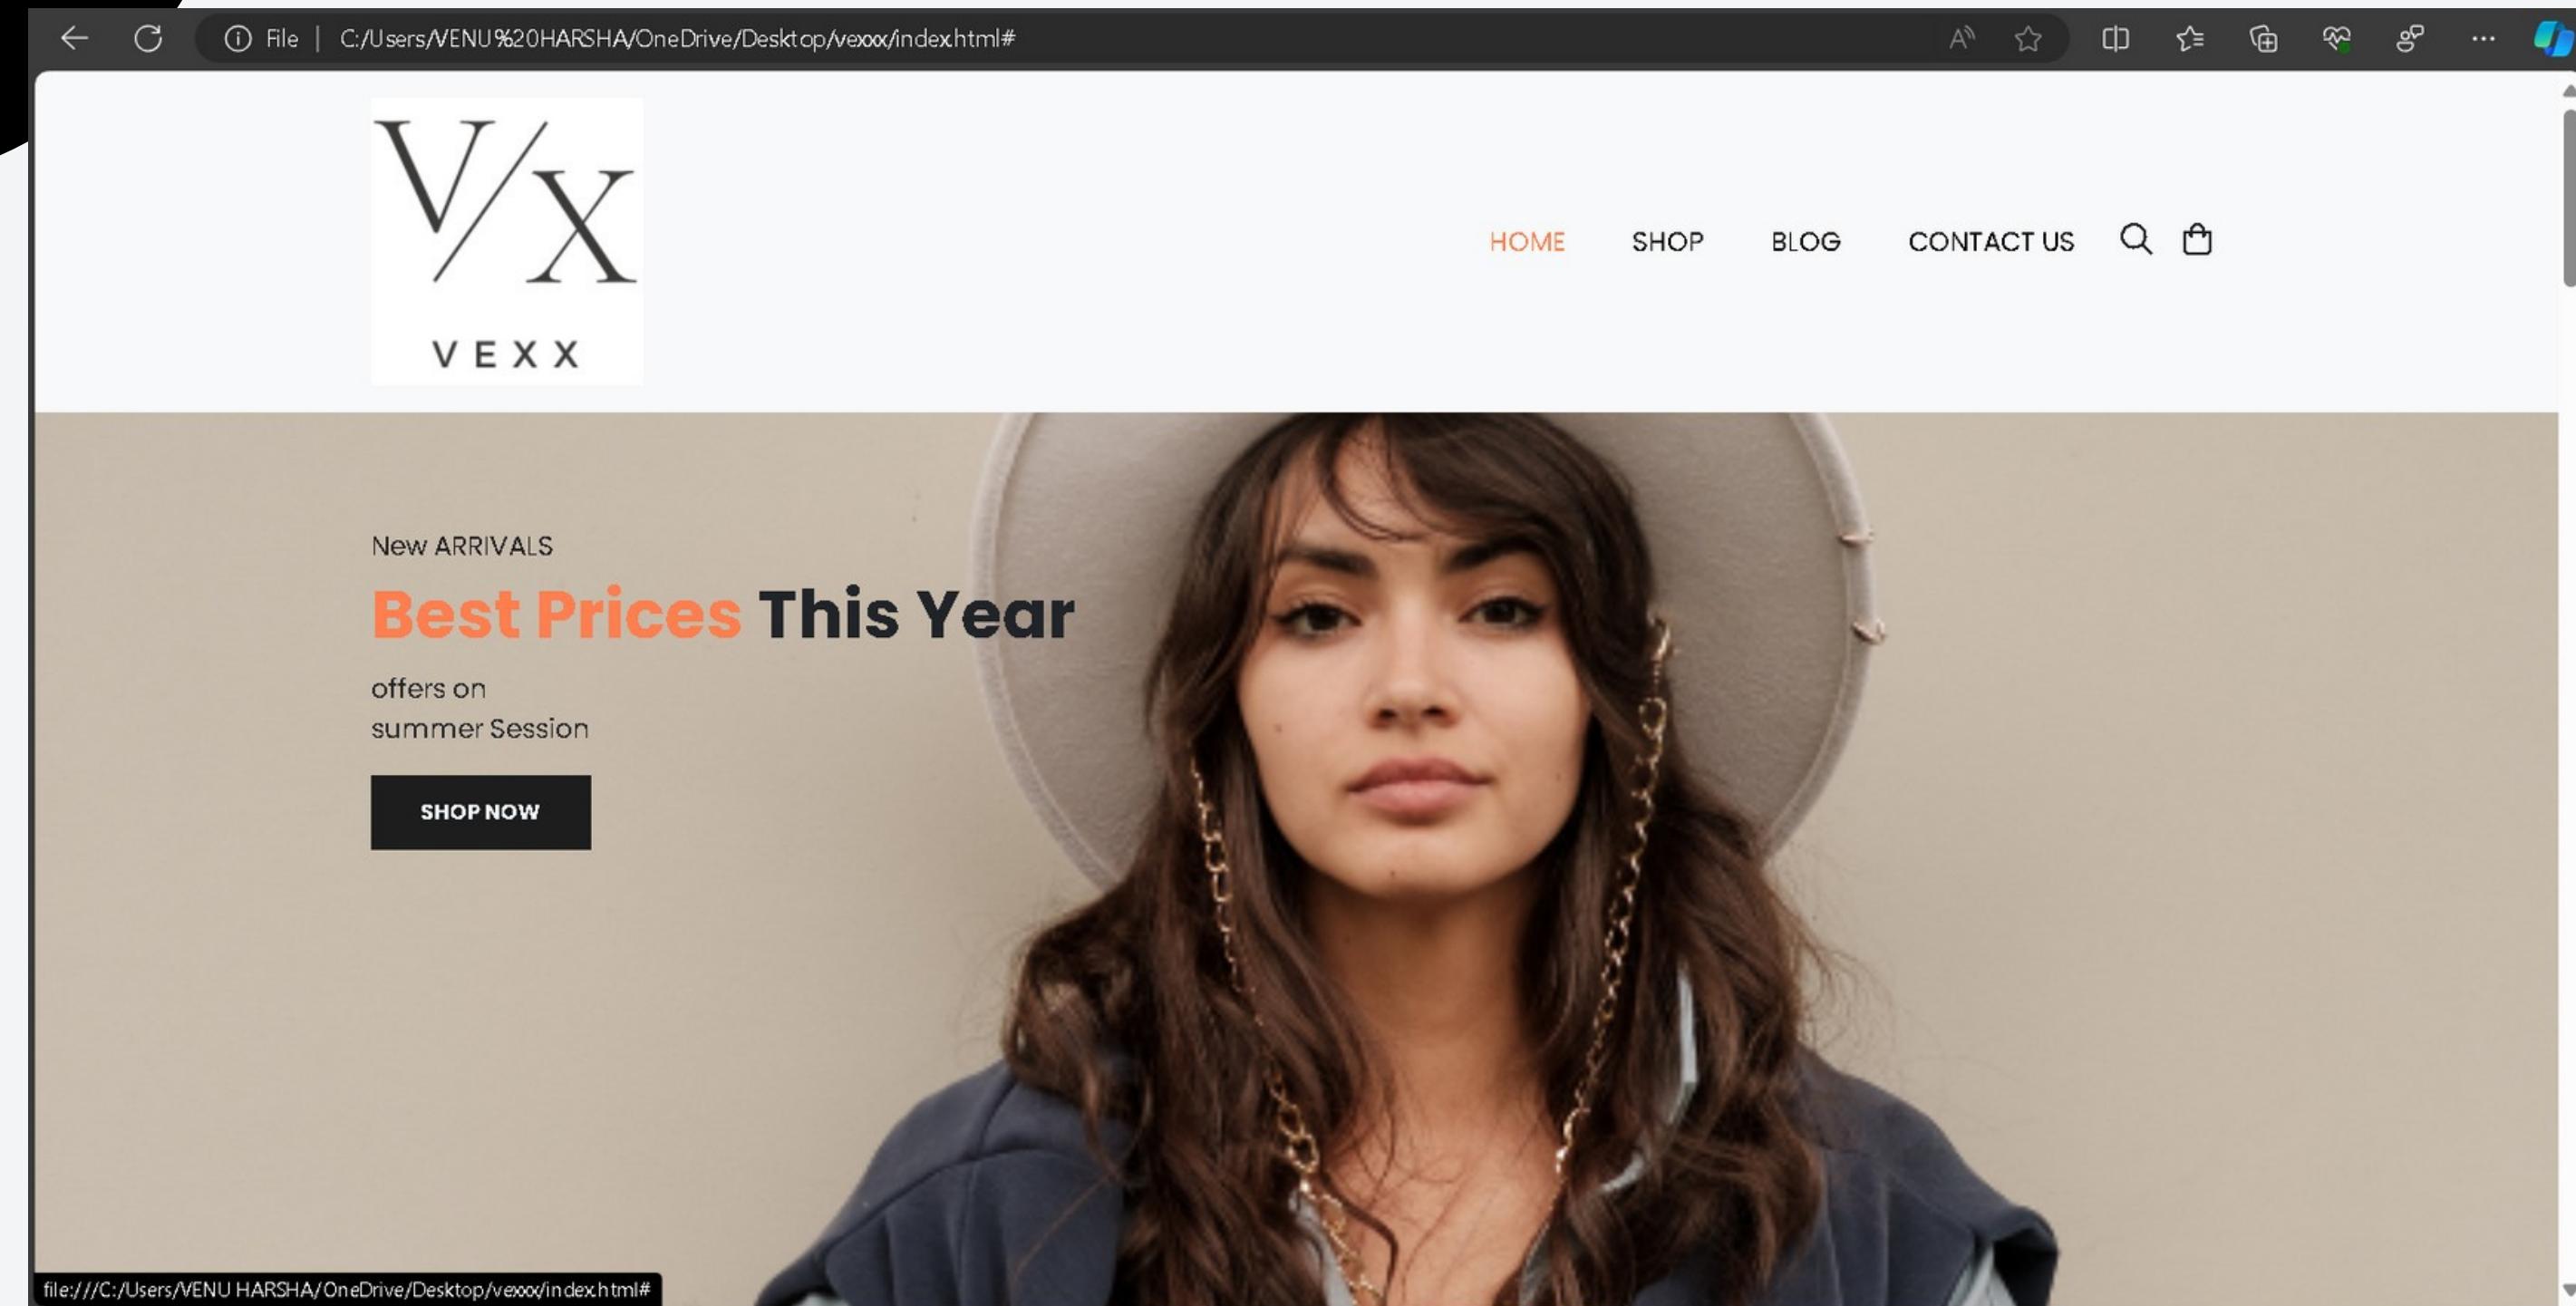

METHOD (APPROACH):

- **Tools and Languages:** We're like the architects of the internet! We'll use HTML and CSS to make the website look appealing and easy to use. For the techy stuff in the background, we're bringing in tools like Node.js to ensure everything runs smoothly.
- **How We'll Work:** Picture us as a team of superheroes. Each one has a specific job – fixing buttons here, arranging pictures there. We'll work together, step by step, making sure each part is perfect before moving on.
- **Testing:** Before we declare victory, we'll be like detectives searching for any hidden issues. We'll test the website thoroughly to ensure you won't face any problems while shopping.

sample screen shots of
website

The screenshot shows a website interface for 'VEXX'. At the top, there's a navigation bar with icons for file operations (File, Save, Print, Copy, Paste, Find, Select All, Undo, Redo, etc.), followed by a search bar and a user profile icon.

The main header features a large, stylized logo 'V/X' above the word 'VEXX' in a smaller, sans-serif font. To the right of the logo is a horizontal menu with links for 'HOME', 'SHOP', 'BLOG', and 'CONTACT US', along with a search icon and a shopping cart icon.

The main content area is divided into three sections:

- Sneakers:** On the left, there's a pair of colorful, patterned sneakers. Below them is a 'SHOP NOW' button.
- Summer Sale:** In the center, there's a vibrant, multi-colored shirt hanging on a hanger. A semi-transparent overlay on the shirt displays the text 'Summer Sale' and a 'SHOP NOW' button.
- Sportswear Upto 70% off:** On the right, there's a shirt with a detailed floral print. A semi-transparent overlay on the shirt displays the text 'Sportswear Upto 70% off' and a 'SHOP NOW' button.

sample screen shots of
website

The screenshot shows a website interface with a dark header bar at the top. The header includes a back button, a refresh button, a file icon, the path 'C:/Users/VENU%20HARSHA/OneDrive/Desktop/vexx/index.html#', and various browser icons on the right.

The main content area features a large logo 'V/X' above the word 'VEXX'. Below the logo, there's a section titled 'Our featured' with the sub-instruction 'Here you can check our new products'.

Four product items are displayed in a row:

- Boots**: Five stars, \$100. An image of a white lace-up boot.
- Slides**: Five stars, \$97. An image of a slide sandal with a brown strap.
- Bags**: Five stars, \$78. An image of a dark blue backpack.
- CAPS**: Five stars, \$50. An image of a pink knit beanie.

A red 'BUY NOW' button is located below the bags section.

website

The image shows a screenshot of a website for 'VEXX'. At the top left is the logo 'VEXX' with a stylized 'V' and 'X'. To the right are navigation links: 'HOME', 'SHOP', 'BLOG', and 'CONTACT US', followed by a search icon and a shopping cart icon. The main content area features a large black and white photograph of a woman wearing a plaid jacket and sunglasses, leaning against a wall. On the left side of the photo, there is promotional text: 'Season SALE', 'Summer Collection', and 'UP TO 20% OFF', with a red 'SHOP NOW' button below it.

Our Products

Here you can check out our new products with fair price on rymo.

The screenshot displays a clean, modern website layout. At the top, a large black circular graphic overlaps the page. Below it, the main content area has a white background. The title 'Our Products' is centered in a bold, dark font. A thin horizontal red line follows the title. Below the line is a paragraph of text: 'Here you can check out our new products with fair price on rymo.' To the right of the text, a cursor arrow points towards the top right corner of the page. Below the text are four square product thumbnails arranged horizontally. From left to right: 1. A dark blue, short-sleeved t-shirt hanging on a wooden hanger. 2. A pair of white athletic shoes with black accents and laces. 3. A blue rectangular bag with a diagonal orange stripe and a floral pattern. 4. A pair of blue lace-up shoes with dark laces. Each thumbnail is set against a light gray background.

sample screen shots of html code

sample screen shots of css code

The screenshot shows a developer's environment with a code editor open to a file named `style.css`. The code is written in CSS and defines styles for various HTML elements, including media queries and specific classes.

```
C:\> Users > VENU HARSHA > OneDrive > Desktop > vexxx > # style.css > footer
121 @media only screen and (max-width: 991px){
122   body>nav>div>button:hover,
123   body>nav>div>button:focus{
124     background-color: #fb774b;
125   }
126
127   body>nav>div>button:hover #bar,
128   body>nav>div>button:focus #bar {
129     color: #d8d8d8;
130   }
131
132   #navbarSupportedContent > ul {
133     margin: 1rem;
134     justify-content: flex-end;
135     align-items: flex-end;
136     text-align: right;
137   }
138   #navbarSupportedContent > ul > li:nth-child(n) > a{
139     padding: 10px 0;
140   }
141
142 }
143
144 #home{
145   background-image: url("img/back.png");
146   width: 100%;
147   height: 100vh;
148   background-size: cover;
149   background-position: top 60px center;
150   display: flex;
151   flex-direction: column;
152   justify-content: center;
153   align-items: flex-start;
```

The interface includes a sidebar with sections for `VARIABLES`, `WATCH`, `CALL STACK` (with an `Open i...` button and `RUNNING` status), `LOADED SCRIPTS`, `BREAKPOINTS` (with options for Caught Exceptions and Uncaught Exceptions), and `EVENT LISTENER BREAKP...`. The bottom navigation bar includes tabs for PROBLEMS, OUTPUT, DEBUG CONSOLE (which is selected), TERMINAL, PORTS, and SQL CONSOLE. A search bar at the bottom says "Filter (e.g. text, !exclude)". The status bar at the bottom shows "Ln 301, Col 8 Spaces: 2 UTF-8 CRLF CSS".

sample screen shots of css code

The screenshot shows the Visual Studio Code interface with the following details:

- Editor:** The main area displays CSS code for a file named "style.css". The code includes media queries for small screens and styles for navigation buttons and a home section.
- Left Sidebar:** The sidebar contains several developer tools:
 - VARIABLES:** Shows a list of variables with their current values.
 - WATCH:** Shows a list of watched variables.
 - CALL STACK:** Shows the current call stack with "RUNNING" status.
 - LOADED SCRIPTS:** Shows a list of loaded scripts.
 - BREAKPOINTS:** Shows a list of breakpoints, including caught and uncaught exceptions.
 - EVENT LISTENER BREAKP...**: Shows event listener breakpoints.
- Bottom Status Bar:** Shows the following information: 0 errors, 0 warnings, 0 info, Connect button, Language: CSS, Line: 301, Column: 8, Spaces: 2, Encoding: UTF-8, End-of-line: CRLF.
